

Hello all,

The Waseca County Facilities Department is applying for a Grant to Improve our Courthouse Park with a New Playground structure. The playground will provide an inclusive, engaging, and well-balanced recreation environment that supports diverse abilities, encourages family interaction, and enhances the quality of the parks setting not only for the current generations but for the generations to come. This new playground will replace the older playground and be put in an area located so it is in line of site of the new pavilion, so kids do not need to run across the parking lot.
